Automatic locks were ordered for the Deters Park bathroom/concession building. This will allow access to the building during daytime hours.

The city building will be unavailable the last week of August in preparation of the 2025 ParkFest. The ParkFest committee uses this area for storage.

The OPWC Round 40 grant applications are due by September 5th to the Putnam County Commissioners. Any new/expansion type projects thru the State Capital Improvement Program require a 50% match plus the cost of engineering fees. Replacement/reconstruction Water, Sanitary and Storm projects have a 10% match and Roads/Bridge projects do not have a match. The mayor questioned if council wanted to pursue having Bockrath Associates start the engineering process for a water loop around Washington and Kennedy Streets. Council decided to table this project for next year but put it on the list of future projects.

Derrick Schierloh presented a layout of the redesign at US 224 and Main St. It would involve taking out the current island and making the turn lane off US 224 wider.
