"I think we have a great community and I think we have a bright future ahead of us."

"I have lived in other communities in my life and this one is much closer and tight knit than what I have experienced. However, the tightness of this society is unaccepting of change and new ideas."

"I wish there were more little shops and places to go, and more greenery around town."

"I really like this community but I feel like a lot of things here are the same. We need more ways for people to connect."

"I think that it would be most important to improve public spaces. Benches, trees, and walkable areas would improve foot traffic to local businesses and improve the quality of life"

"I love the community we live in. It is easy to feel at home and safe in the environment. Everyone is family."

"I would like to comment on the question about if our community will be better in 2040 or not. I believe we could go in many directions. We could keep getting bigger and bigger, in that case I think our community will be worse because we will loose that "Everybody knows everybody" feel, but there is really nothing anyone can do to prevent people from moving here, I mean who wouldn't want to live here. We could also keep improving if we keep that tight knit feel and continue all of the amazing traditions we have as well as producing some of the most well rounded people that I have ever met."
